

# FreightHitch Handover

Hi Brad, please find credentials to your gmail, AWS and Google Cloud accounts used in the quote generation project. Each account has been set up to a professional standard and you can re-use these accounts for any future development work.

I have designed each solution to be very low cost, so monthly bills will be no more than ~\$1-2 a month depending on usage. Each account requires a payment option to be set up. I have set each account up with my own card. Please follow the instructions to add your own card and remove mine (I cannot do this without having your card details, so I have left it to you).

If you want to be secure I would recommend changing the passwords once you have access to the accounts.

## Gmail

Used for setting up the other accounts.

Username: Freighthitch2025@gmail.com

Password: Fre1ghtHitch2025

## Amazon Web Services (AWS)

Used for hosting the web apps and APIs.

### How to Log In

1. Go to this link:

[https://signin.aws.amazon.com/signin?client\\_id=arn%3Aaws%3Asignin%3A%3A%3Aconsole%2Fcanvas&redirect\\_uri=https%3A%2F%2Fconsole.aws.amazon.com%2Fconsole%2Fhome%3FhashArgs%3D%2523%26isauthcode%3Dtrue%26state%3DhashArgsFromTB\\_eu-north-1\\_82d6196fc302d867&page=resolve&code\\_challenge=5X-vKCYxmkDv9GeGZfKjJf6BCrkuMtaqZi4S4CSLBNS&code\\_challenge\\_method=SHA-256&backwards\\_compatible=true](https://signin.aws.amazon.com/signin?client_id=arn%3Aaws%3Asignin%3A%3A%3Aconsole%2Fcanvas&redirect_uri=https%3A%2F%2Fconsole.aws.amazon.com%2Fconsole%2Fhome%3FhashArgs%3D%2523%26isauthcode%3Dtrue%26state%3DhashArgsFromTB_eu-north-1_82d6196fc302d867&page=resolve&code_challenge=5X-vKCYxmkDv9GeGZfKjJf6BCrkuMtaqZi4S4CSLBNS&code_challenge_method=SHA-256&backwards_compatible=true)

2. Use these credentials:

- Email Address: [Freighthitch2025@gmail.com](mailto:Freighthitch2025@gmail.com)
- Password: Fre1ghtHitch2025

TODO:

- Go to  
<https://us-east-1.console.aws.amazon.com/billing/home#/paymentpreferences/paymentmethods>
- Add a payment method, set it as the default
- Delete the existing payment method (mine)

## Google Cloud

Used for generating times/distances and validating locations using the Google Maps API.

### How to Log In

- You log in with the gmail credentials at the top of this document

TODO:

- Go to  
<https://console.cloud.google.com/billing/01CD8F-388463-D5174D/settings?authuser=5&inv=1&inv=Ab1gDQ&project=exemplary-datum-461320-b8>
- Add a payment method, set it as the default
- Delete the existing payment method (mine)

## MongoDB

NoSQL database used to store all data

### How to Log In

- Sign in with your gmail credentials
- Download MongoDB Compass
- Connection String:  
mongodb+srv://freighthitch:<db\_password>@cluster0.gvtu6gk.mongodb.net/
